Professional Summary

Entry-level Data Analytics and AI Automation candidate with internship experience using Python, SQL, and Power BI for data preprocessing, analysis, visualization, and reporting. Built data analytics, SQL, and AI-assisted job-matching projects.

Education

Malla Reddy Engineering College and Management Sciences **2022 – 2026**
Bachelor of Technology in Internet of Things *CGPA: 6.8/10*

Experience

MSME **May 2025 – Jun. 2025**
Data Analyst Intern

- Performed data preprocessing, analysis, and visualization using Python, SQL, and Power BI to prepare structured datasets and analytical findings for data-driven decision-making.
- Analyzed datasets to identify patterns, trends, inconsistencies, and data-quality issues; prepared analytical reports using defined processes.

Edunet Foundation **Jun. 2025 – Jul. 2025**
AI Intern

- Worked with Microsoft Azure AI and Cognitive Services, applying analytical and problem-solving skills to AI-based solutions and technical requirements.

Projects

Box Office Analytics Dashboard | *Power BI*

- Developed an interactive dashboard with executive, financial, categorical, ratings, and time-based views to analyze business performance and trends.
- Used filters for year, genre, and language to examine financial performance, genre and rating patterns, and time-based trends.

Bank Transaction Analysis | *SQL, MySQL*

- Designed and queried a relational bank transaction dataset to analyze accounts, transaction patterns, balances, deposits, withdrawals, and account activity.
- Applied JOINs, subqueries, GROUP BY, aggregate functions, CASE statements, and window functions to identify trends and anomalies.

AI Resume Analyzer and Job Matching System | *n8n, Google Gemini*

- Developed an AI-powered application that analyzes resumes against job descriptions, identifies relevant skills, and generates structured recommendation reports.
- Processed unstructured resume and job-description information through an AI workflow to produce structured, actionable outputs.

Technical Skills

Programming & Data: Python, SQL, MySQL, Pandas, NumPy
Analytics & BI: Power BI, Microsoft Excel, XLOOKUP, Pivot Tables, Pivot Charts
AI & Cloud: Natural Language Processing (NLP), n8n, Google Gemini, Microsoft Azure AI, Azure Cognitive Services
Tools: GitHub, Jupyter Notebook, VS Code

Certifications

- Develop GenAI Apps with Gemini and Streamlit Skill Badge – Google Cloud
- Store, Process, and Manage Data on Google Cloud – Console Skill Badge
- Foundation of Cloud, IoT, Edge and ML – NPTEL
- Data Analyst Hackathon 2025 – UIDAI
- HackerRank Orchestrate Hackathon – June and September 2026 Editions
