Google Cloud Skills Badge Portfolio - 19 Certifications

Develop GenAI Apps with Gemini and Streamlit Skill Badge | Issued: 2025-10-31

*Level: Intermediate * Source: Google Cloud Skills Badge*

- Text generation with Gemini and prompt engineering
- Applying function calls using the Python SDK and Gemini API
- Deploying a Streamlit app on Cloud Run via Docker container

Set Up a Google Cloud Network Skill Badge | Issued: 2025-10-31

*Level: Introductory * Source: Google Cloud Skills Badge*

- Designing VPC networks and subnets
- Configuring routes and firewalls
- Connecting resources securely across regions

Prompt Design in Vertex AI Skill Badge | Issued: 2025-10-30

*Level: Introductory * Source: Google Cloud Skills Badge*

- Crafting effective prompts for Vertex AI
- Controlling output format and temperature
- Evaluating prompt quality and iterating

Analyze Speech and Language with Google APIs Skill Badge | Issued: 2025-10-26

*Level: Introductory * Source: Google Cloud Skills Badge*

- Using Speech-to-Text for transcription
- Applying Natural Language API for sentiment/entity
- Integrating language APIs into applications

Implement Speech and Language Solutions with Pre-trained APIs | Issued: 2025-10-26

*Level: Introductory * Source: Google Cloud Skills Badge*

- Leveraging pre-trained Speech API models
- Using Translation and Vision APIs together
- Building voice-enabled features

Monitoring in Google Cloud Skill Badge | Issued: 2025-10-26

*Level: Introductory * Source: Google Cloud Skills Badge*

- Setting up Cloud Monitoring and Alerting
- Creating dashboards and metrics
- Defining SLOs and alerting policies

Build Serverless Applications with Cloud Run Functions | Issued: 2025-10-25

*Level: Introductory * Source: Google Cloud Skills Badge*

- Writing HTTP-triggered Cloud Functions
- Deploying via gcloud and managing revisions
- Connecting to Pub/Sub and Firestore

Deploy and Manage Applications on Google App Engine | Issued: 2025-10-25

*Level: Introductory * Source: Google Cloud Skills Badge*

- Configuring app.yaml and services
- Scaling with automatic instance management
- Deploying updates with zero downtime

Build a Website on Google Cloud Skill Badge | Issued: 2025-10-23

*Level: Introductory * Source: Google Cloud Skills Badge*

- Hosting static sites with Cloud Storage
- Using Firebase Hosting for dynamic content
- Connecting custom domains with SSL

Store, Process, and Manage Data on Google Cloud - Console Skill Badge | Issued: 2025-10-23

*Level: Introductory * Source: Google Cloud Skills Badge*

- Creating Cloud Storage buckets and managing objects
- Using BigQuery for analytics queries

- Organizing data with Cloud Console

Develop with Apps Script and AppSheet Skill Badge | Issued: 2025-10-22

*Level: Introductory * Source: Google Cloud Skills Badge*

- Automating workflows with Google Apps Script
- Building no-code apps in AppSheet
- Integrating with Sheets and Calendar

App Building with AppSheet Skill Badge | Issued: 2025-10-21

*Level: Introductory * Source: Google Cloud Skills Badge*

- Designing app interfaces with AppSheet
- Creating data sources and views
- Publishing and sharing mobile apps

Implement Cloud Collaboration and Productivity Workflows | Issued: 2025-10-21

*Level: Introductory * Source: Google Cloud Skills Badge*

- Automating cross-app Google Workspace flows
- Using AppSheet for team productivity
- Integrating Docs, Sheets, and Drive

Get Started with Dataplex Skill Badge | Issued: 2025-10-19

*Level: Introductory * Source: Google Cloud Skills Badge*

- Understanding data zones and lakes
- Using Dataplex for governance
- Cataloging data assets

Get Started with Looker Skill Badge | Issued: 2025-10-17

*Level: Introductory * Source: Google Cloud Skills Badge*

- Creating dashboards in Looker
- Building SQL-based explores
- Sharing insights with stakeholders

Deploy and Secure Serverless APIs with API Gateway | Issued: 2025-10-15

*Level: Introductory * Source: Google Cloud Skills Badge*

- Creating REST/GRPC APIs with API Gateway
- Applying IAM and API keys for security
- Monitoring API usage and quotas

Implement Event-Driven Messaging and Automation Workflows | Issued: 2025-10-15

*Level: Introductory * Source: Google Cloud Skills Badge*

- Using Pub/Sub for decoupled messaging
- Triggering Cloud Functions on events
- Building workflow automation pipelines

The Basics of Google Cloud Compute Skill Badge | Issued: 2025-10-15

*Level: Introductory * Source: Google Cloud Skills Badge*

- Creating and managing Compute Engine VMs
- Configuring networking and disks
- Using SSH and managing instances

Implement Cloud Storage and Data Protection Solutions | Issued: 2025-10-14

*Level: Introductory * Source: Google Cloud Skills Badge*

- Designing secure Cloud Storage policies
- Using encryption and lifecycle rules
- Implementing access controls and audits

Portfolio Append - Additional Credentials Summary

Summary of Additional Credentials (NPTEL + HackerRank)

1. NPTEL - Foundation of Cloud, IoT, Edge and Machine Learning

Issuer: NPTEL (National Programme on Technology Enhanced Learning)
Subject: Foundational concepts across cloud computing, IoT, edge computing and ML
Notes: Earned (user-reported); certificate ID/score/completion date not provided

2. HackerRank Orchestrate - June 2026

Organization: HackerRank; event: June 2026 Orchestrate
Activity: Project submission/participation documented in prior conversations
Verification: No formal certificate/award verified; record as event participation

This section summarizes the uploaded NPTEL and HackerRank credentials for portfolio inclusion.
